UNIVERSAL FIRE-KILLER

**#1 PORTABLE FIREFIGHTING MACHINES
SELF CONTAINED APPLICATION UNITS.
Small and large machines.**

By BlazeBoss

NOW EVERYONE CAN FIGHT FIRES WHEN NEEDED.
UTILITY COMPANIES - FOREST SERVICES - RANCHERS
LOGGING CAMPS - FUELING STATIONS - AIRPORTS
SKI AREAS - VOLUNTEER FIRE DEPARTMENTS -
PROPERTY OWNERS.

ECONOMICAL - POWERFUL - EASY MAINTENANCE
THESE UNITS ARE READY TO SHIP ANYWHERE IN THE WORLD.

No need to wait for disaster to strike. Most fires can be stopped or contained when caught in the early stages. Time is of the essence. Generally most small fires can be doused with 100 gallons of water. Other fires which require foams or gels no problem the Universal Fire Killer can handle these applications too. These units can also be used to spray fire retardants such as TG-300 creating fire barriers on grass, herbicides, pesticides, fertilizer and many other chemicals.

Mounted on a "road legal" quality trailer up to 1900 lbs. carrying capacity. Self-priming double stage firefighting pump with a self metering injection system for foam applications, A powerful Briggs and Stratton Gas Engine. Rechargeable tank system with quick 7 minute recharge for continuous service. Easy adapter for switching from water, fire retardants, gels and foams.

With UNIVERSAL's NO RISK 100% Satisfaction guarantee.

90 day no risk warranty. Custom designed.

Every unit is pre-tested to insure top performance and are ready for quick response fire fighting. Made with only proven quality parts and precision engineering with extensive field testing.
